In partnership with Click A Tree, we have grown a forest of 2,500 trees in the Philippines, covering 3,125m² and absorbing over 732.5t of CO₂.

Additionally, 2,500kg of ocean plastic has been collected, offsetting the carbon emissions from magazine production, distribution, and team travel. This initiative not only benefits the environment but also creates jobs in rural Philippines and repurposes plastic into school chairs.

Cleverdis achieved carbon neutrality in 2024 and plans

to maintain it by offsetting emissions through tree planting, recycling, and social projects. An ongoing audit with Greenly will ensure all 2024 emissions are offset in 2025, alongside efforts to reduce them, such as limiting travel and minimizing the digital footprint. CSR remains central to our growth strategy.
